

Ready to see how this innovative sealant could work in your plant?

We'll ship everything you need and provide technical personnel and guidance during the entire process.

The "Novagard Glazinator" is a completely self-contained pump and demo system that lets you trial NovaFlex Qwik-Set Glazing Sealant in your plant with *no disruption* to your production line. Easily test how our two-part sealant works on your substrates and components, with adjustable ratios that allow the cure profile to be dynamically modified based on your plant conditions.

Contact your sales rep to schedule your demo.

NovaFlex Qwik-Set Portable Adhesive & Glazing Sealant now available!

Building on the success of our award-winning NovaFlex Qwik-Set Glazing Sealant, this portable version makes hand glazing, field glazing, and field installation faster with high initial green strength. It is especially useful in tight spots and for repairs.

This new, fixed 2:1 ratio is available in a dual cartridge and can be easily applied using a portable pneumatic or

battery powered gun for quick repairs in the field or where glazing tables aren't an option.

How to get your windows moving as **Qwik** as you can.

Qwik-Set means high unit throughput.

And as fast as your windows stack up, so do all the other reasons to use **Qwik-Set Glazing**.

Rapid Cure

improves quality and reduces callbacks

Excellent Primerless Adhesion

to most substrates and accessories

Low Viscosity

is easy on pumping equipment

Adjustable Ratio

dials in your snap time

Squeeze-out Cleanup

that's qwik and easy, too

Qwik-Set Glazing Sealant is a two-component, neutral cure silicone that rapidly builds adhesive and elastomeric strength while bedding or glazing to help speed up your production line. It is available in 5 gallon pails and 55 gallon drums.

So what are you waiting for?
Call (216) 881-8111. And be *qwik* about it!
